

Our experience in European projects

- ⚡ The organisations in PROMETEO are among the most important Spanish contractors in the FP6, in terms of the success of their proposals.
- ⚡ As part of Tecnia-Technology Corporation, ESI has been involved in 172 FP6 projects, leading 29 of them, with a total EC grant of 40 M€ (the second Spanish private entity and the third absolute in terms of European returns).
- ⚡ ESI-Tecnia has participated in R&D projects since the Fourth Framework Programme.
- ⚡ ESI-Tecnia has experts that evaluate project proposals for the EC under different programmes.

PROMETEO FP7 OFFICE is a project financed by CDTI through the EuroIngenio programme and the TecnoEuropa actions.

If you are looking for **Spanish** partners for your FP7 project consortium, please **contact us**.

Looking for Partners for your FP7 Project?

PROMETEO FP7 OFFICE is the gateway to collaborate with Spanish companies in Embedded Systems

<http://www.prometeo-office.org>

PROMETEO FP7 OFFICE is an initiative launched by PROMETEO, the Spanish counterpart of the European Technology Platform ARTEMIS, "Advanced Research & Technology for Embedded Intelligence and Systems".

about us

PROMETEO FP7 OFFICE is the FP7 Project office created to help Spanish companies partner in FP7 projects for Research and Technological Development.

PROMETEO FP7 OFFICE is supported by CDTI (Centre for the Development of Industrial Technology), the agency of the Ministry of Industry, Tourism and Commerce that promotes innovation and encourages the Spanish enterprises to develop technologically.

The office is managed by ESI (integrated in Tecnalía-Technology Corporation) on behalf of PROMETEO. ESI is a member of the Steering Board of ARTEMISIA, the Industrial Association representing R&D actors in ARTEMIS JTI.

Our aims

- ⌘ **Increase** the participation of Spanish companies in FP7 projects.
- ⌘ **Enhance** the Spanish industry competitiveness through RTD.
- ⌘ **Help** along the preparation and presentation of quality proposals for FP7 RTD projects.

Our target

- ⌘ **European organisations which are preparing proposals in embedded systems and are interested in creating consortiums for FP7 projects with Spanish companies.**
- ⌘ Companies in the Information and Communication Technology (ICT) sector and specially those oriented to the development or use of industrial software and/or embedded systems that research and develop on embedded technology.
- ⌘ Companies in other industrial sectors interested in FP7 research for which ICT solutions are key for their business, and at the same time are interested in participating in FP7 projects.

how can we collaborate

PROMETEO provides a gateway to find the right Spanish partners fitting the required profiles in the project under preparation.

Through the Spanish involvement, we offer **cost-free** support in all the stages of the European proposal preparation:

- ⌘ Look for Spanish partners in order to complete proposals in preparation.
- ⌘ Support in all stages of the life cycle of a European project:
 - ⌘ Ideas and opportunities
 - ⌘ Creation or integration of Consortiums
 - ⌘ Assistance in proposal writing
 - ⌘ Pre-evaluation of Proposals
 - ⌘ Negotiation of the contracts
 - ⌘ Support in projects management

The following graph explains the office's services according to the particular phase of the project life cycle:
